PROFILE

Motivated aspiring ERP Consultant with a strong foundation in business analysis, process mapping, and requirement gathering. Experienced in analysing business needs, designing process flows, and collaborating with developers, designers, and QA teams throughout the system development lifecycle. Familiar with SDLC and Agile methodology, with hands-on exposure to ERP-related concepts such as system configuration, data flow design, and process automation. Proficient in Microsoft Excel and business analysis tools including Figma. Committed to bridging business requirements with technical solutions to improve organisational efficiency.

PROJECTS

Rental Management System (Group) | Business Process & Requirements Analyst 2025

Student Association Information Technology (S@IT), University of Sri Jayewardenepura

- Gathered and analysed business requirements to design core modules of a Rental Management System.
- Mapped end-to-end business processes and collaborated with developers to translate requirements into functional system workflows, similar to ERP module design.

Expense Tracker Application (Individual) | Developer 2024

- Built a Python-based application to track, categorise, and report daily expenses — reinforcing understanding of financial data flows relevant to ERP finance modules.

UX Research — Gig Economy Delivery Riders (Group) | UX Researcher 2026

Mini UX Project, University of Sri Jayewardenepura

- Conducted empathize-and-define research with active Uber and PickMe delivery riders to uncover pain points in order-acceptance decisions.
- Synthesised findings into a persona, problem statement, and How Might We statements; carried insights through ideation and a Figma prototype tested with real users.

PROFESSIONAL QUALIFICATIONS

- AAT – Passed Finalist
- Business Level II Completed – CA Sri Lanka, Corporate Level Reading
- Diploma in Banking & Finance – Institute of Bankers of Sri Lanka (IBSL)

CERTIFICATIONS

- SAP S/4HANA Certification – SAP
- Internet Resource Management Certification – APNIC (Asia Pacific Network Information Centre)
- IT Customer Support Basics – Cisco Networking Academy
- Multiple Free Online Courses – HP LIFE (business & entrepreneurship fundamentals)

EXTRA CURRICULAR ACTIVITIES

Member — Student Association Information Technology (S@IT) Nov 2025 - Present

University of Sri Jayewardenepura
